Appendix A: Summary of Key Stimulus Programs

Coronavirus Economic Stabilization Act of 2020 (CESA): Subtitle A of Title IV of the CARES Act allocates \$500 billion to or in support of certain eligible businesses, States and municipalities in the form of loans, loan guarantees and other investments.

- *Assistance to Air Carriers and National Security Businesses:* CESA specifically reserves up to the following amounts for loans and loan guarantees: (1) \$25 billion to passenger air carriers and certain related businesses, (2) \$4 billion to cargo air carriers and (3) \$17 billion to businesses critical for maintaining national security.
- *Support under Section 13(3) of the Federal Reserve Act:* CESA specifically reserves up to \$454 billion (and amounts not otherwise allocated to air carriers or national security businesses) for the Treasury Secretary to make loans, loan guarantees and other investments in programs or facilities established by the Federal Reserve under Section 13(3) of the Federal Reserve Act for the purpose of providing liquidity to the financial system that supports lending to eligible businesses, States or municipalities.
- *Direct Support under Section 13(3) of the Federal Reserve Act:* The Treasury Secretary is authorized to make loans, loan guarantees or other investments in programs or facilities established under Section 13(3) that make direct loans to eligible businesses. “Direct loans” mean bilateral loan agreements entered into with an eligible business, which are not part of (1) a syndicate, (2) a loan originated by a financial institution in the ordinary course of business or (3) a loan originated pursuant to a securities or capital markets transaction.
- *Mid-Sized Business Loans:* The Treasury Secretary is authorized to seek to implement a program under Section 13(3) that makes financing available to banks and other lenders that make direct loans to eligible businesses with between 500 and 10,000 employees, including nonprofit organizations, on favorable rates and with interest and principal deferral for 6 months.

Air Carrier Worker Support: Subtitle B of Title IV of the CARES Act provides financial assistance in the form of loans, loan guarantees and other investments to passenger and cargo air carriers and contractors to be used for the continuation of payment of employee wages, salaries and benefits. Specifically, under this program, up to \$25 billion is reserved for passenger air carriers, \$4 billion for cargo air carriers and \$3 billion for contractors.

Paycheck Protection Program Loans: Title I of the CARES Act expands eligibility for loans under Section 7(a) of the Small Business Act (SBA) to include (1) any business, nonprofit organization, veterans organization or Tribal business concern that has 500 or fewer employees or that otherwise

meets the size standards established by the SBA for the relevant industry, (2) sole proprietors, independent contractors and other self-employed individuals and (3) businesses with a NAICS classification that begins with 72 (Accommodation and Food Services), with more than one physical location and which employ no more than 500 employees per physical location. Note that if a company receives a loan under the Paycheck Protection Program, it is not eligible for the payroll tax credit under the CARES Act, and if the loan is forgiven, the company is not eligible for the delayed payment of payroll taxes under the CARES Act.
