(1) For the purposes of Section C(6) of Annex I to Directive 2014/65/EU, paragraphs 6 and 7 of Part 1 of Schedule 2 to this Order, a wholesale energy product must be physically settled where all the following conditions are satisfied:

(a) it contains provisions which ensure that parties to the contract have proportionate arrangements in place to be able to make or take delivery of the underlying commodity; a balancing agreement with the Transmission System Operator in the area of electricity and gas shall be considered a proportionate arrangement where the parties to the agreement have to ensure physical delivery of electricity or gas.

(b) it establishes unconditional, unrestricted and enforceable obligations of the parties to the contract to deliver and take delivery of the underlying commodity;

(c) it does not allow either party to replace physical delivery with cash settlement;

(d) the obligations under the contract cannot be offset against obligations from other contracts between the parties concerned, without prejudice to the rights of the parties to the contract, to net their cash payment obligations.

For the purposes of point (d), operational netting in power and gas markets shall not be considered as offsetting of obligations under a contract against obligations from other contracts.

(2) Operational netting shall be understood as any nomination of quantities of power and gas to be fed into a gridwork upon being so required by the rules or requests of a Transmission System Operator as defined in Article 2(4) of Directive 2009/72/EC of the European Parliament and of the Council for an entity performing an equivalent function to a Transmission System Operator at the national level. Any nomination of quantities based on operational netting shall not be at the discretion of the parties to the contract.
For the purposes of Section C(6) of Annex I to Directive 2014/65/EU paragraphs 6 and 7 of Part 1 of Schedule 2 to this Order, force majeure shall include any exceptional event or a set of circumstances which are outside the control of the parties to the contract, which the parties to the contract could not have reasonably foreseen or avoided by the exercise of appropriate and reasonable due diligence and which prevent one or both parties to the contract from fulfilling their contractual obligations.

For the purposes of Section C(6) of Annex I to Directive 2014/65/EU paragraphs 6 and 7 of Part 1 of Schedule 2 to this Order, bona fide inability to settle shall include any event or set of circumstances, not qualifying as force majeure as referred to in paragraph 3, which are objectively and expressly defined in the contract terms, for one or both parties to the contract, acting in good faith, not to fulfil their contractual obligations.

The existence of force majeure or bona fide inability to settle provisions shall not prevent a contract from being considered as ‘physically settled’ for the purposes of Section C(6) of Annex I to Directive 2014/65/EU paragraphs 6 and 7 of Part 1 of Schedule 2 to this Order.

The existence of default clauses providing that a party is entitled to financial compensation in the case of non- or defective performance of the contract shall not prevent the contract from being considered as ‘physically settled’ within the meaning of Section C(6) of Annex I to Directive 2014/65/EU paragraphs 6 and 7 of Part 1 of Schedule 2 to this Order.

The delivery methods for the contracts being considered as ‘physically settled’ within the meaning of Section C(6) of Annex I to Directive 2014/65/EU paragraphs 6 and 7 of Part 1 of Schedule 2 to this Order shall include at least:

(b) delivery of a document giving rights of an ownership nature to the relevant commodities or the relevant quantity of the commodities concerned;
